

## FOR RACES

- Handlers must be in attendance at the catching pen prior to the commencement of the Event.
- Handlers must wait until the lure passes their location and **ALL** greyhounds are in the catching pen and then attempt to catch. DO NOT walk in front of the lure or incoming greyhounds.
- Handlers are only permitted to handle their greyhound.
- If any handler has any complaints against another handler do not voice the complaint in public; the matter is to be reported to Stewards on duty in the Stewards room.
- Handlers must wear enclosed, flat sole shoes.
- Only licensed persons are permitted to catch greyhounds.
- Handlers must use leads which enable quick and efficient arresting of greyhound's mobility.
- All handlers should ensure that they do not step on or cause injury to any greyhound in the act of catching their greyhound.
- Only one person is permitted to catch each greyhound unless otherwise directed by the Stewards.
- Handlers are not permitted to take any other person with them to the catching pen area unless permission has been granted by the Steward in Charge of the meeting.
