

Policy Background

This policy outlines the requirements for greyhounds being kennelled at all South Australian tracks during race meetings and trial sessions.

Application of the Policy

All greyhounds kennelled at South Australian tracks must be provided at all times with appropriate warm, clean, vermin resistant bedding in line with The South Australian Greyhound Industry Animal Welfare Policy.

Failure to provide suitable bedding for greyhounds kennelled during race meetings and trials to the satisfaction of Stewards will result in action being taken against the responsible person(s) at the time.

GRSA reserves the right to alter or amend this policy at any time.

This policy is effective as at 1 March 2020
