ELIGIBILITY & CONDITIONS

Under this scheme, any registered SA breeder domiciled in SA may make application for the rebate of prescribed breeding expenses. The rebate will be restricted to TWO whelpings per breeding premises with the exception of a) litters being whelped in 'agency' or on behalf of a non-resident breeder OR b) where multiple genuine breeders who operate with some degree of demonstrable independence are deemed to share the same premises. The determination of eligibility will be assessed at the absolute discretion of the CEO of GRSA.

The CEO of GRSA reserves full discretion in relation to the oversight of the scheme. Scenarios which may be excluded from the scheme include, but are not limited to, circumstances wherein a) bred stock is primarily being targeted for interstate sale/racing, b) the mating selection is deemed to be of unsuitable/poor quality or c) the rebate application process is undertaken in a deliberately misleading or fraudulent manner. Scheme ineligibility may be applied to a specific mating or in relation to a registered Breeder (person). A determination of ineligibility as it applies to a Breeder may be deemed to have ongoing and/or indefinite effect.

All claim documentation and supporting material must be provided as true and correct records of expense. Wherein circumstances warrant, GRSA reserves the right to take any other action that it may deem necessary in relation to a) breach of the application process or b) breeding-related behaviour that is deemed to conflict with GRSA animal welfare standards, expose the industry to reputational risk, or serve to the general detriment of the industry.
